The ILS was developed to cut a vast array of materials at efficient rates. The machine is simple to load and operate, making it ideal in a production or semi-production environment. It is perfect for industries such as Glass, Gaskets, Sheet Metal, Tile & Stone, Sign Makers, Plastics, Foam & Rubber, Insulation, and Ducted Pipe System manufacturers.

### Integrated Local Support

Techni Waterjet is the only waterjet manufacturer offering 24/7 support and access to all stocked spare parts giving our customers peace of mind.

### Reliable

Techni Waterjet machines can be in production 24/7 with consistent and reliable performance at the same price as a Chinese machine.

### Jet Fast

Fast cutting speeds without compromise, exclusive technology offered by Techni Waterjet to enhance production output
