

# Advanced Nesting Software

Powered By Geometric

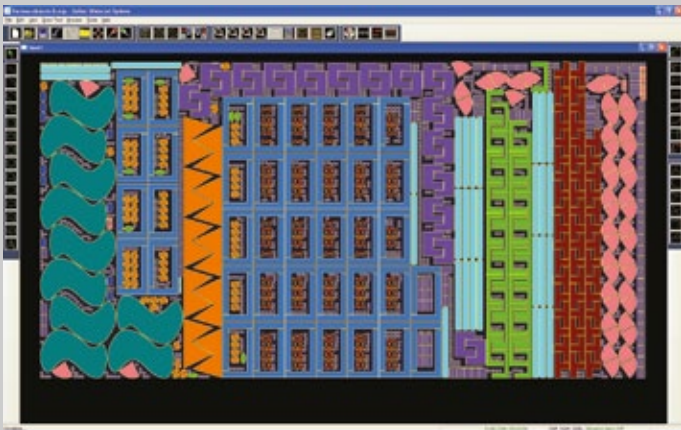

Softec Nest™ utilizes advance nesting algorithms which have been developed by one of the worlds largest and most awarded CAD and nesting software developers - Geometric Global

## BENEFITS

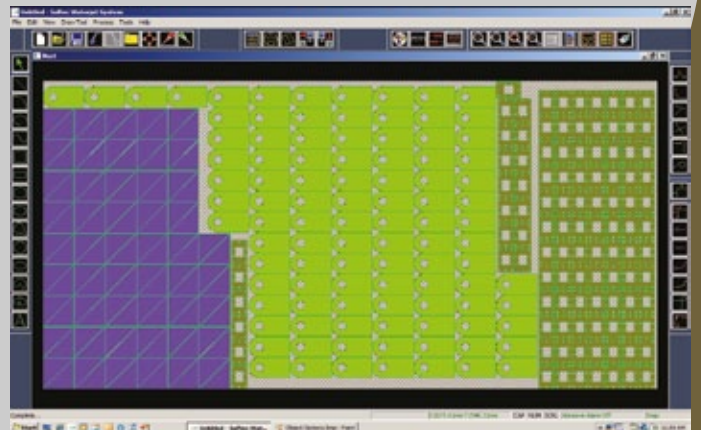

- Improves Profitability By Increasing Material Yield
- Improves Profitability By Minimising Rapid Feed Times
- Improves Profitability By Increasing Nesting Speed
- Improves Profitability By Increasing Remnant Size

## FEATURES

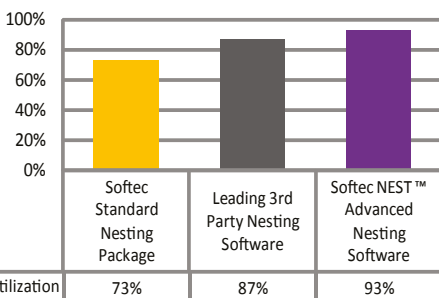

- Grid Nesting
- Sheet Utilization Percentage
- Multiple Remnant Options
- Multiple Sheets
- Collar Width Control
- Mirror Objects
- Infinite Step Angle Control
- Cutting Sequence Generation
- Preferential Hole Filling
- Corner Nesting

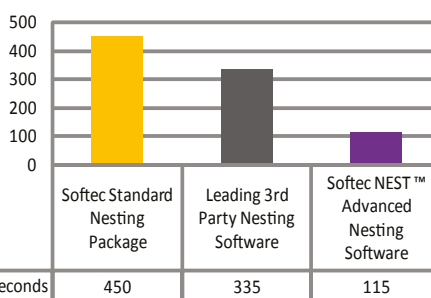

↑ Advanced Nesting Sheet Used For Comparisons

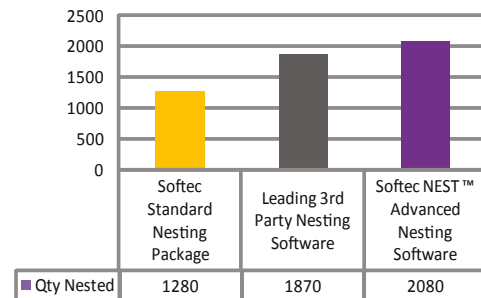

### Utilization

### Time To Nest

### Quantity Of Parts Nested

INNOVATION THROUGH PASSION
